

Quality Wool & Livestock hosts local BredWell FedWell workshop

WOOL and livestock producers flocked to the Riverland recently as the Quality Wool and Livestock Group hosted a BredWell FedWell workshop in Waikerie.

More than 20 producers attended the workshop on Tuesday, July 20, hosted by Brenton Kroehn, of Borung Poll Merino Stud.

Livestock Logic's Darren Gordon, who facilitated the day alongside Dr Jason Trompf, from JT Agri-Source, said the 22 participants taking part walked away from the workshop having gained practical tools to optimise reproduction and profitability in their ewe flocks.

"It was a fantastic day for all the producers, combining genetics and management in the one place," he said.

A joint initiative between Meat & Livestock Australia (MLA) and Australian Wool Innovation (AWI), BredWell FedWell workshops aim to help commercial producers, stock agents and many others to advance their skills in ram selection using Australian Sheep Breeding Values (ASBVs).
